

Smt. NPS Govt. Degree College (Women) Chittoor

PROGRAMME SPECIFIC OUTCOMES

Programme: B.Sc. (MSCS – Maths, Statistics, Computer Science)

- Understand the concepts of vector spaces, group theory, algorithms and sampling techniques.
- Student gain the skills to use various techniques, numerical algorithms, data analysis and MS Excel, programme languages.
- Analyse the concepts of maths, statistics, and computers to use it in data sciences and algorithm designs.
- Develop an aptitude in addressing the problems in DBMS, web development.
- Improve their computer literacy, their basic understanding of operating systems
- Use the Systems Analysis Design paradigm to analyze a problem critically.
